# Custom Theft Proof Flush Mount Installation

1. Install the Top and Bottom Brackets on your wall.  Be sure to attach the brackets with the proper secure hardware (not included).

2. Attach the Top and Bottom brackets to the back of the TV Fortress (7 bolts (1/2 IN) included)
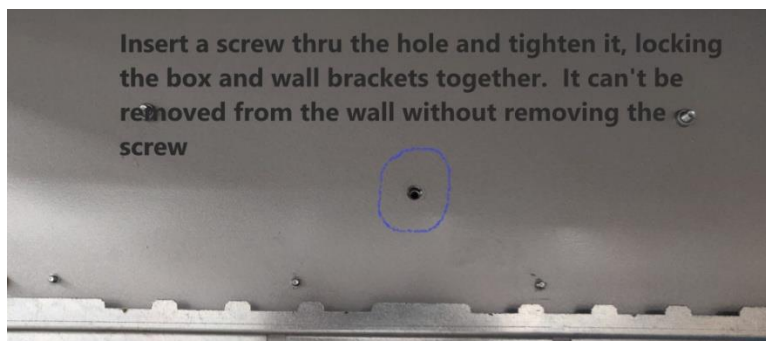

The Custom Theft Proof Mount
Is Self Leveling

*Only Available on the Large Fortress

Finished Wall View                                    Finished Back of Fortress

3.Lift the Fortress and lower the brackets into the brackets mounted on the wall, it should self level.

Insert a screw thru the hole and tighten it, locking the box and wall brackets together.  It can't be removed from the wall without removing the screw

4.Looking inside the Fortress find the Locking set screw hole, and insert and tighten the set screw.
