

# TV Installation in the TV Fortress

1. Place your TV on a sturdy table screen facing down.
2. The screw holes in the back of the TV may be hidden by plastic plugs. Just pry them off.
3. Locate the mounting brackets and line them up with the VESA screw holes on the back of your TV. Use the examples below to set proper fitment

4. Tighten the screws thru the Brackets into the TV.
5. Lift up the TV and place the tilting hook of the bracket on the top internal mounting rail of the Fortress

6. Pull the cords slightly to open the bracket locking mechanism, then release the cords locking the TV in place.
7. To remove the TV pull the cords and pull the bottom of the TV forward then lift the TV up and out of the TV Fortress.
